Hosting Appeal

Dear Visitor. The Tap has become increasingly busy and we can't stay online without your help. We need a hosting account upgrade to help cope with the increased activity and keep this free blog online. In this age of great change The Tap is a valuable independent resource where we can come together and share information the controlling parasites would rather we didn't have. Please help if you can and donate a small amount towards the hosting costs. Your donation will make a huge difference. Thank you in advance. **Click here to donate**

One Response to “Stakeholder Capitalism Explained: The WEF plan for global Communism by 2030”

Kurten interviewed Robin Tilbrook in detail about The English Democrats before setting up his own Party. Why did he not join forces? No one will ever know. He has funding from somewhere and is loyal to the UK using the Union Jack each time he talks. The fomenter of wars. Opponent of world government, but could well be under control. Former teacher. Another Farage to waste our time? The WEF is the centre of the push for world dominion, and communism – he’s right to oppose but inside the UK, we can’t break out from the WEF, where we are locked in by Treaty. As an independent England, we could break out of WEF, communism and stop England being broken up into 11 regions. The name Heritage Party is especially weak – nothing but bleaumange. No fire in the belly to be seen.
